

MIHAI ROTARI

Software Analyst / Data Engineer / Python Developer

+373 68 762 322 | mihai.rotari.nicolai@gmail.com | Chişinău, Moldova

Profile

Analytical and results-driven Software Engineer specializing in web development, software systems, automation, and data integration.

Contributed to an academic project at the Technical University of Moldova focused on Automated Traffic Control at Intersections, involving the integration of AI models for object recognition in image and video streams.

Possess fundamental knowledge of neural networks and machine learning concepts (ML), with practical experience in Python-based implementations.

Skills & Abilities

Strong practical experience with:

- Databases: **MS SQL Server, MySQL, SQLite**
- Programming: **SQL, Python (Django, FastAPI, Pandas, NumPy, Selenium)**
- Data Visualization: **Power BI, Grafana**
- Automation & APIs: **REST API, ETL Data pipelines, Bash scripts**
- Web & Tools: **HTML, CSS, JSON, XML, Git, Windows Terminal**

Code editors & IDEs: VS Code, DataGrip, DBeaver, SSMS, Sublime Text, Notepad++

Areas in which I have limited practical experience:

JavaScript, PHP, Docker, Linux (Ubuntu, Bash), Apache Server, VirtualBox, VMware

Experience

2023 – 2025 | Payment Database Administrator / Financial Data Entry Officer

Bpay, Chişinău

- Maintained and optimized payment collection and processing pipelines handling over 500,000 transactions per day from 700+ distinct endpoints
- Designed and managed database infrastructure, ETL pipelines, and automation scripts for payment reconciliation and reporting across AML, Marketing, and Accounting.
- Set up an alerting system for 1st-line support to enable rapid detection and response to operational issues
- Maintained reliable and secure transaction processing by enforcing data integrity controls and monitoring system stability.

2022 – 2023 | Banking Help Desk Specialist
VictoriaBank, Chişinău

- Provided technical support to internal banking staff
- Installed, configured, and maintained banking applications
- Managed user permissions and access control
- Used RDP to resolve software, printer, and network issues

2018 – 2022 | Sales Agent (B2B)

- Negotiated contracts and adapted sales solutions to client needs
- Coordinated logistics and distribution planning
- Conducted basic marketing activities and collected client feedback for improvement

Github: <https://github.com/megadanyx>

Education

2019 – 2024 | Technical University of Moldova (UTM)

Faculty of Computers, Informatics, and Mathematics

Relevant courses: Computer Systems and Networks, Programming Fundamentals, Data Structures & Algorithms, Operating Systems, Databases

2018 | College of Microelectronics and Computer Science

Specialization: Radioelectronic Systems

Languages

- Romanian: Native
- Russian: Fluent (spoken & written)
- English: Intermediate (B1 reading/writing, A2 speaking) — able to read technical documentation and communicate clearly in writing

Additional Strengths

- Strong organizational and multitasking abilities
- Experience managing multiple data projects under tight deadlines
- Commitment to continuous learning and professional growth
